tutè solutions

Getting started is easy: credit your tutè account with an agreed amount and begin using it on any of tutè's products, with any of your students. To suit different budgets and priorities, we provide a **private** and a **shared** option, or you can have a mix of both!

PRIVATE

With Tute private lessons **only students from your school attend the online lesson**. The schemes of learning are bespoke to your needs and the lessons can be arranged at a time to suit you. You pay per group, per lesson for up to 12 students, with the same cost applying for any number below this.

This is the best option if one or more of the below apply to you:

- You require a specific provision
- There are 6 or more students
- Those students' requirements are similar
- You require timetable flexibility

SHARED

With Tute shared lessons your **students join an online group of up to 12 students from other schools** at a set time. Tute chooses the provision based on what schools and LAs need and set the timetable. You pay on a per student, per lesson basis.

This is the best option if one or more of the below apply to you:

- Tute's current provision suits your students
- There are fewer than 6 students
- Those students have varied requirements
- If you do not require timetable flexibility.
